Hydropneumatic Press

Electro Hydraulic Press

Four-Action Hydraulic Press

Pillar Type Hydraulic Press

'C' Type Hydraulic Press

Straightening Hydraulic Press

Spare Parts & Service Support

Extensive Cost-effective Support for all PAL Supplied Presses & Equipments. Qualified staff of field engineers and technicians possess many years of practical design and field experience for professional after-sales service.

- Preventive Maintenance Programs Training.
- Remote Diagnostic & Troubleshooting Services.
- Documented Operation & Maintenance Manuals.

Manufacturing Facilities

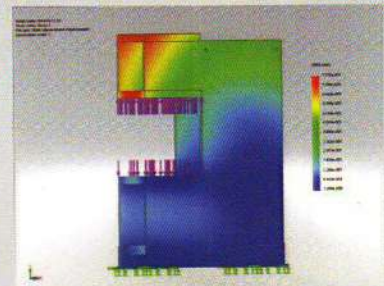

- PAL has excellent large size machining facilities capable of achieving a very high degree of accuracy
- Fabrication—Machining—Grinding—Super Finishing
- Electric Control Panels with PLC & CNC Programming
- In-House Testing & Trials.

State of the Art

Engineering Capabilities

PAL has the extensive engineering experience, as well as, in-house capability to custom design mechanical, hydraulic, and electrical/control features to your specific application.

Our Design software capabilities utilizes Solid Works 3D modeling, and Finite Element Analysis software.

- 'C' FRAME PRESSES
- H-FRAME TYPE PRESSES
- 4-COLUMN TYPE PRESSES
- 4-PILLER TYPE PRESSES
- SPECIAL PURPOSE MACHINES
- CAPACITY 5T TO 1500T
- CONTROLS MANUAL TO PLC/CNC
- HYDRAULIC CYLINDERS
- POWER PACKS
